

# BENEFIT AND PiP SUPPORT

- **Specialist support from initial application through to appeals**
- **Clear, simple, up-to-date help and advice**
- **Additional support for individuals**

**We're here to make sure you get the benefits you're entitled to, including Personal Independence Payment (PiP) support.**

## **BENEFITS REVIEW**

Our Benefit Review will check any benefits you're entitled to, helping to give you more support and extra funds to ease financial pressures. Our service is available to both individuals and those acting on their behalf, including professional deputies and attorneys.

Benefit services provided by the government and local authorities can be challenging to navigate. Our specially-trained team can help with a full review of your current finances and income, and advise on benefits that you or your client could be entitled to.

Our Benefit Review takes around an hour and our friendly, experienced team do their best to make sure it's a comfortable and relaxed experience. We'll provide you with a bespoke, easy-to-read report detailing the potential benefits and amounts you could get, together with advice on making individual claims.

## **Need extra support?**

Our team are here to help every step of the way. From helping you apply for a benefit, to supporting you during an appeal.

## **PERSONAL INDEPENDENCE PAYMENT (PIP) SUPPORT**

PiP is a type of government support designed to help with additional living costs - if you have a long-term physical or mental health condition or disability, and find it difficult to complete particular day-to-day tasks. There are two parts to PiP – Mobility and Daily Living.

You could be entitled to the Mobility element if you have difficulty moving around your own home or community; or the Daily Living element if you have difficulty with everyday tasks such as preparing food, paying bills, managing medication, looking after your personal care needs, or handling your finances. You could also be entitled to the Daily Living element if you have a disability that impacts your ability to socialise.

## **With Nellie, you're always in good hands**

By understanding your personal needs and how your condition or disability impacts your day-to-day life, we can ensure forms are completed accurately to ensure the best possible outcome, provide further supporting evidence, and review things as your needs change.

We can help you navigate the whole PiP process, from completing an initial eligibility form (PIP1) and submitting your application (PIP2), to requesting a mandatory reconsideration (CRMI) and launching an appeal should your claim be turned down (SSCS1).
